SUMMARY

A student at State Polytechnic of Malang with deeply engaged in cybersecurity, a passion I've nurtured since my college years. Actively practice on platforms like Hack The Box, cybersecurity mentor, and contribute write-ups on Medium. Also create cybersecurity content on TikTok and regularly compete in cybersecurity competitions.

EDUCATION

Bachelor's of Applied Science, Informatics Engineering   **Aug 2022 - Aug 2026 (Expected)**
State Polytechnic of Malang
- Cumulative GPA: 3.71/4.0
- Conducted research about cybersecurity, finding vulnerabilities on Ujianjti Polinema and Porseni Polinema systems.
- Speaker at Brain Boost Capture The Flag 2024, with approximately 30 participants.
- Member of the Workshop Riset Informatika.

WORK EXPERIENCE

Cybersecurity mentor for an extracurricular program, SMKN 4 Malang   **Sep 2024 - Present**
- Assisted students in learning cybersecurity concepts and techniques.
- Develop and deliver engaging hands-on workshops and training sessions
- Prepared students for LKS (Lomba Kompetensi Siswa) in cybersecurity.

Penetration Tester, Freelance   **Dec 2023 - Present**
- Conducted reconnaissance and information gathering to identify potential entry points.
- Developed and executed custom scripts and tools to exploit vulnerabilities.
- Provided remediation recommendations and collaborated with clients to enhance their security posture.
- Ensured compliance with industry best practices and standards during penetration testing.
- Created comprehensive vulnerability assessment reports.

Quality Assurance Intern, PT RetGoo Sentris Informa   **Mar 2021 - Dec 2021**
- Conducted comprehensive testing of software applications.
- Documented test results, identified defects, and compiled detailed reports to assist developers in improving the software quality.
- Worked closely with the development team to refine testing procedures and provided feedback for iterative improvements.

ACHIEVEMENTS

- **Best Defender** GEMASTIK XVII, Cybersecurity Division
- **Finalist** KMIPN V, Cybersecurity Division
- **2nd Place** Internal Competition 2023, Cybersecurity Division

- **Finding Vulnerability** on Porseni Polinema System
